

Derrick Jesse Mokaya Resume

Nairobi, Kenya | Phone: +254711558103 | Email: derekmokaya54@gmail.com | [LinkedIn](#) | [Portfolio](#)

Data & AI Lead | Data Governance & GRC | Risk & Data Analytics | Process Intelligence enthusiast | Intelligent process optimization & transformation

PROFESSIONAL SUMMARY

Analytical and technology-driven Data & AI professional with strong foundations in enterprise data management, business intelligence, data governance, analytics, and AI enablement. Experienced in designing data-driven solutions, developing analytical models, and supporting digital transformation initiatives through scalable data ecosystems, reporting automation, and governance best practices. Demonstrated capability in data modelling, SQL development, analytics engineering, dashboard development, process optimization, and stakeholder engagement across actuarial, financial, pension, and cybersecurity environments. Adept at translating business requirements into actionable data solutions that improve decision-making, operational efficiency, and risk visibility. Passionate about enterprise AI readiness, intelligent automation, cloud data ecosystems, governance frameworks, and advanced analytics within financial services environments.

EDUCATION

Multimedia University of Kenya Bachelor of Science in Actuarial Science Graduated: October 2025

Relevant Coursework

- Database Management Systems
- Statistical Modelling
- Data Analytics
- Predictive Analytics
- Financial Mathematics
- Risk Modelling
- Operations Research
- Business Intelligence Concepts

KASNEB

Diploma in Data Management & Analytics Completed: August 2025

Key Areas Covered

- Data Governance
- Data Warehousing
- Business Intelligence
- Data Visualization
- Database Management
- Data Analytics
- Information Systems
- Enterprise Data Management

CORE COMPETENCIES

- Enterprise Data Architecture
- AI Enablement & Data Readiness
- Data Governance & Data Quality
- Data Modelling & Information Management
- SQL & Database Management
- Data Warehousing Concepts
- ETL / ELT Processes
- Power BI & Business Intelligence
- Python for Analytics
- Enterprise Reporting & Dashboards
- Metadata & Data Lineage
- Data Integration & APIs
- Risk Analytics & Decision Support
- Advanced Excel & Automation

- Stakeholder Engagement
- Requirements Gathering
- Process Improvement
- Analytics Translation
- Information Security Awareness
- Agile Collaboration

TECHNICAL SKILLS

Data & Analytics

- SQL
- Python
- Power BI
- Excel
- Tableau (Foundational)
- Data Cleaning & Transformation
- Data Visualization
- Statistical Analysis

Data Management & Architecture

- Data Modelling
- Data Governance
- Data Quality Management
- Metadata Management
- Data Lineage
- Relational Databases
- Data Integration Concepts
- Enterprise Information Management

AI & Digital Transformation

- AI Enablement Support
- Business Intelligence Strategy
- Intelligent Process Optimization
- Automation Readiness
- Analytics Enablement

Cybersecurity & Risk

- SOC Operations Fundamentals
- Cybersecurity Governance Awareness
- Risk Analytics
- Compliance & Controls Awareness

PROFESSIONAL EXPERIENCE

National Social Security Fund Kenya — Pension Attache Nairobi, Kenya | May 2025 – Aug 2025

Key Responsibilities

- Supported pension operations, member records analysis, and benefits administration activities.
- Assisted in validating pension data accuracy, completeness, and reconciliation processes.
- Participated in reporting and analytics activities supporting operational decision-making.
- Collaborated with internal teams to improve data consistency and reporting efficiency.
- Assisted in documentation and maintenance of pension process records and operational datasets.

Key Achievements

- Improved reporting turnaround efficiency by supporting structured pension data validation and reconciliation processes.
- Enhanced data accuracy through systematic review and cleansing of member records and pension-related datasets.
- Contributed to operational process optimization initiatives supporting service delivery consistency.
- Supported improved reporting visibility through structured Excel-based analytical reporting.

PROJECT EXPERIENCE

AI & Enterprise Data Readiness Projects

Enterprise Analytics & BI Solutions

- Designed interactive Power BI dashboards for KPI monitoring, operational reporting, and decision-support analytics.
- Built SQL-driven analytical datasets improving reporting accuracy and automation efficiency.
- Developed data transformation workflows supporting reporting standardization and improved analytical consistency.

Pension Sustainability Analytics Project

- Conducted actuarial and demographic analytics research focused on pension sustainability in Kenya.
- Applied statistical modelling concepts using Python for longevity and pension risk analysis.
- Utilized structured datasets and scenario modelling techniques to assess long-term pension sustainability indicators.

Data Governance & Information Management Initiatives

- Applied governance principles including data quality validation, structured documentation, and data integrity management across analytics projects.
- Supported metadata organization, structured reporting standards, and reusable analytical asset development.
- Implemented consistent data handling and reporting methodologies improving traceability and reporting confidence.

CERTIFICATIONS

- Google Advanced Data Analytics Professional Certificate
- Google Business Intelligence Professional Certificate
- IBM Data Science Professional Certificate
- IBM Data Analyst Professional Certificate
- Cisco Certified Ethical Hacker USIU-Africa/Cyber Shujaa
- SOC Tier I Analyst / Security Analyst Training USIU-Africa/Cyber Shujaa
- EC-Council Security Analyst certification
- Certified Business Analysis Professional (CBAP)
- Microsoft Business Analyst Professional Certificate
- Yale Financial Markets Certificate

LEADERSHIP & ACTIVITIES

- Participated in analytics and digital transformation learning communities focused on AI, governance, and business intelligence.
- Conducted independent research in pension analytics, enterprise data modelling, and intelligent automation.
- Engaged in continuous professional development in cloud data ecosystems, AI governance, and enterprise architecture practices.
- Supported collaborative academic and analytical projects involving reporting automation and data-driven decision-making.

SELECTED ACHIEVEMENTS

- Developed analytical reporting solutions improving KPI visibility and operational insight generation.
- Applied Python and SQL for structured analytics, automation, and data transformation use cases.
- Built business intelligence dashboards supporting faster reporting and improved data accessibility.
- Demonstrated cross-functional analytical capability spanning actuarial science, AI enablement, governance, and cybersecurity awareness.
- Established strong multidisciplinary expertise aligning business analysis, enterprise data management, and analytics engineering principles.
